Principal's Message

"Education is not the learning of facts, but the training of the mind to think." - Albert Einstein

I am thrilled to present the first e-Quarterly Magazine of KDC Govt. Degree College Jaisinghpur, Kangra (H.P.). This new session brings fresh faces, new energy and inspiring achievements.

From this year, our NSS has started two units, giving students more opportunities to serve society. I am also optimistic about the establishment of an NCC unit very soon, which will build discipline, courage and leadership. Our Rover-Ranger unit, sports, cultural programmes, awareness drives and career counselling sessions continue to add to the vibrant life of the college.

It is a matter of pride that the Rozgaar Mela, held at the beginning of this session in our college, provided jobs to many students. Others secured places in higher education and made our institution proud. The launch of self-finance courses like BCA and PGDCA has opened new career-oriented learning opportunities.

We remain dedicated to a student-centric approach. Our aim is not only academic excellence but also the holistic growth of our students. I am proud of their progress and look forward to more achievements in the future.

May you learn with passion, serve with compassion and grow with courage, carrying the glory of our college forward.

पर्यावरण संरक्षण

पर्यावरण हमारे अस्तित्व का मूल आधार है। हम जो सांस लेते हैं, जो जल पीते हैं, जो भोजन करते हैं—सब कुछ प्रकृति की देन है। पर्यावरण केवल पेड़-पौधों या नदियों तक सीमित नहीं है, बल्कि इसमें जल, वायु, भूमि, जीव-जंतु और समस्त प्राकृतिक संतुलन शामिल है। आधुनिक विकास की दौड़ में मनुष्य ने प्रकृति का अत्यधिक दोहन किया है, जिसके परिणामस्वरूप प्रदूषण, जलवायु परिवर्तन, ग्लोबल वार्मिंग, जल संकट और जैव विविधता का विनाश जैसी गंभीर समस्याएँ उत्पन्न हो गई हैं।

आज शहरों में बढ़ता धुआँ, नदियों में गिरता कचरा, जंगलों की अंधाधुंध कटाई और प्लास्टिक का अत्यधिक उपयोग पर्यावरण को निरंतर क्षति पहुँचा रहे हैं। यह केवल प्रकृति की हानि नहीं, बल्कि मानव जीवन के भविष्य के लिए भी खतरा है। यदि यहाँ स्थिति बनी रही, तो आने वाली पीढ़ियों को स्वच्छ जल, शुद्ध वायु और संतुलित जलवायु मिलना कठिन हो जाएगा।

पर्यावरण बचाव के लिए हमें अपने दैनिक जीवन में सकारात्मक बदलाव लाने होंगे। जैसे—पानी और बिजली की बचत करना, प्लास्टिक का कम उपयोग करना, कचरे को अलग-अलग करके उसका सही निपटान करना, अधिक से अधिक पेड़ लगाना और सार्वजनिक स्थानों को स्वच्छ रखना। “कम उपयोग करें, पुनः उपयोग करें और पुनर्चक्रण करें” का सिद्धांत अपनाकर हम पर्यावरण पर पड़ने वाले दबाव को कम कर सकते हैं।

शिक्षा संस्थानों की भी इसमें महत्वपूर्ण भूमिका है। विद्यार्थियों में पर्यावरण के प्रति जागरूकता, जिम्मेदारी और संवेदनशीलता विकसित करना अत्यंत आवश्यक है। जब युवा पीढ़ी प्रकृति के महत्व को समझेगी, तभी समाज में स्थायी परिवर्तन संभव होगा।

पर्यावरण संरक्षण कोई विकल्प नहीं, बल्कि हमारी नैतिक और सामाजिक जिम्मेदारी है। प्रकृति और मानव का संबंध परस्पर निर्भरता का है। यदि हम आज पर्यावरण की रक्षा करेंगे, तो वही पर्यावरण हमें सुरक्षित, स्वस्थ और संतुलित जीवन प्रदान करेगा। सामूहिक प्रयास, जागरूकता और जिम्मेदार व्यवहार से ही हम पृथ्वी को आने वाली पीढ़ियों के लिए सुरक्षित और सुंदर बना सकते हैं।

Increasing Population

Population refers to the total number of people living in a particular country or region. In today's world, population growth has become an important issue for all nations. Especially in developing countries like India, the rapid increase in population creates many social, economic, and environmental challenges.

India is one of the most populous countries in the world. Due to the rising population, pressure on education, healthcare, employment, housing, and natural resources is continuously increasing.

When the population grows rapidly, problems such as unemployment, poverty, and pollution also increase. Many people migrate from rural areas to cities in search of jobs, which leads to overcrowding and poor living conditions in urban areas.

The main causes of population growth include illiteracy, lack of awareness, early marriages, and limited knowledge about family planning. In many areas, people still do not understand the importance of having a small family.

As a result, resources are not properly distributed, and the overall standard of living is affected.

However, population should not always be seen as a problem. If the population is educated, skilled, and healthy, it can become the greatest strength of a country.

A large youth population can contribute significantly to national development. Therefore, it is important for the government and society to promote education, women empowerment, and family planning.

Population is a serious issue, but with proper policies and awareness, it can be controlled. A balanced population is the foundation of a bright future for any nation.
